Virtual Health

Set up access to online medical help

You need healthcare 24/7 — not just when it's convenient. Virtual health (powered by MDLIVE) gives you access to medical help for nonemergency conditions on your smartphone or computer.

Get started!

1. Go to MyVirtualHealth.com
2. Go to Member sign in
 - Sign in or register for your Blueprint Portal account.
3. Activate your virtual health account
 - In Blueprint Portal, select **Virtual Health** from the tHealth & Wellness tab, select **Visit MDLIVE** and follow the prompts to activate your account.
(Note: You'll skip this step in the future and be sent directly to MDLIVE.)
 - Establish your account profile and those of your dependents if applicable. You will need member ID numbers to complete this step.
4. Choose a doctor
 - Choose from a large network of state-licensed, board-certified doctors (including pediatricians).

- Choose to see the next available physician (usually within 10 minutes) or schedule an appointment at a specific time, with a specific physician.
- You will need to provide some details about your past history and medical problem(s):
