

Getting Care When and Where You Need it

Getting medical care at the wrong place can be costly ... in money and time. Your primary care physician, or PCP, should be your first choice for care. Find out when to use some of these other helpful care options:

- Your PCP clinic after-hours number
- Your PCP telehealth appointments
- An urgent care or walk-in clinic
- The hospital emergency room
- Virtual Health

Make sure you're going to the right place for care.

Watch this [brief video](#) to help you understand more about where to get care.
